MUHAMMAD FUZAIL AHMED

Full-Stack Web Developer | React.js • Node.js • SQL

Karachi, Pakistan | +92 323 3675155 | mfuzail.ahmed30@gmail.com | GitHub | LinkedIn | Portfolio

PROFESSIONAL SUMMARY

BS Computer Science student (4th semester complete, CGPA 3.84/4.00) with hands-on experience building full-stack MERN applications. Experienced across the stack with: responsive React/Tailwind front ends, Node.js/Express REST APIs, JWT authentication and role based access control, and MongoDB data modeling and relational schema design in Microsoft SQL Server. Looking for a Web Development internship to contribute to production codebases while continuing to build backend depth.

TECHNICAL SKILLS

- Languages: JavaScript, C++, C#
- Frontend: HTML, CSS, React.js, Tailwind CSS
- Backend: Node.js, Express.js, REST APIs, JWT Authentication, Role-Based Access Control
- Databases: MongoDB (data modeling, referencing, aggregation pipelines), Microsoft SQL Server (relational schema design, SQL)
- Tools:: Git, GitHub, Postman, VS Code, Cloudinary.
- Core CS: OOP, Data Structures & Algorithms

PROJECTS

Project Management Platform — Live Demo | Code

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, Role Based Access Control, JWT, Multer, Cloudinary

- Built a team project management tool with an owner/admin/member permission hierarchy, where each role has distinct, enforced permissions for projects, tasks, and members.
- Implemented task and subtask tracking with status workflows, project-level notes, and file attachments via Multer and Cloudinary.
- Built MongoDB aggregation pipelines to generate project level dashboard metrics and structured reporting.
- Implemented cookie based JWT authentication and protected routes, while enforcing server side role authorization and validation across restricted API endpoints.

Portfolio Builder — Live Demo | Code

React.js, Tailwind CSS, Node.js, Express.js, MongoDB, JWT, Brevo, Vercel, Render

- Built and deployed a full-stack MERN application that lets users create and manage personal portfolios, with authentication and CRUD-based content management.
- Implemented JWT-protected routes, email verification, and password recovery; integrated Brevo for transactional emails.
- Deployed frontend on Vercel and backend on Render, handling environment configuration for a live production app.

ScanBorrow — Smart Library Management System| Code

React.js, Tailwind CSS, Node.js, Express.js, Microsoft SQL Server, JWT, REST APIs, html5-qrcode

- Built a QR-based library system with separate student and admin dashboards, backed by a normalized SQL Server schema for users, books, book copies, and transactions.
- Implemented QR-code borrowing and returns, automatic fine calculation for late returns, and overdue alerts on the student dashboard.
- Built an admin panel with book/copy management, transaction and defaulter reports, and activity logs; secured all routes with JWT auth and role-based access control

EDUCATION

BS Computer Science — Sir Syed University of Engineering & Technology, Karachi

Expected Graduation: 2028 | CGPA: 3.84/4.00

CERTIFICATIONS

- Meta Front-End Developer Professional Certificate — Coursera
- Advanced React — Coursera
